

Welcome: Session 34 (18/10/21)

- Thank you for joining us
- We are grateful for the support of the community sector working in partnership with us to share messages with the residents of Kingston
- We need every resident to know what they can personally do to keep themselves safe - and that way - also help Kingston safe as a whole
- Today we will share the latest data for Kingston
- We will share the latest key messages - for you to share with your contacts

Kingston daily cases at 17/10/21 (latest data at 12/10/21)

28 Sep 2021

Number of cases : 79

Cases (7-day average) : 83.9

5 Oct 2021

Number of cases : 110

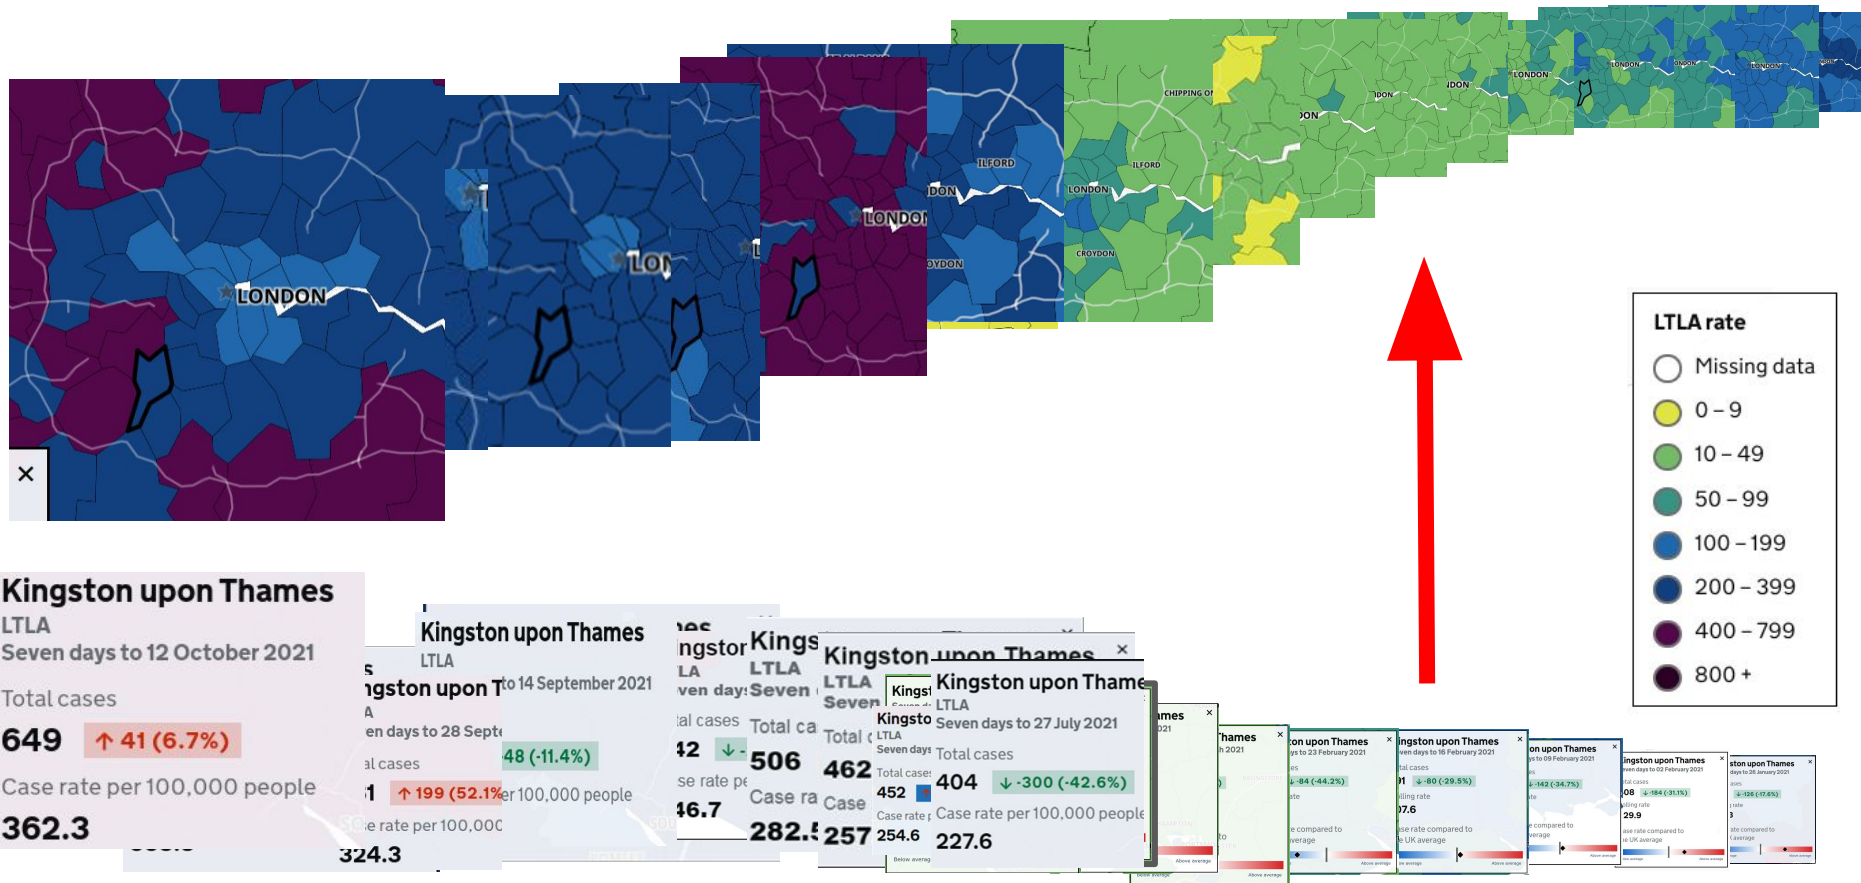

Cases (7-day average) : 87.4

12 Oct 2021

Number of cases : 112

Average daily case numbers continue to increase

What is the trend in Kingston for COVID-19?

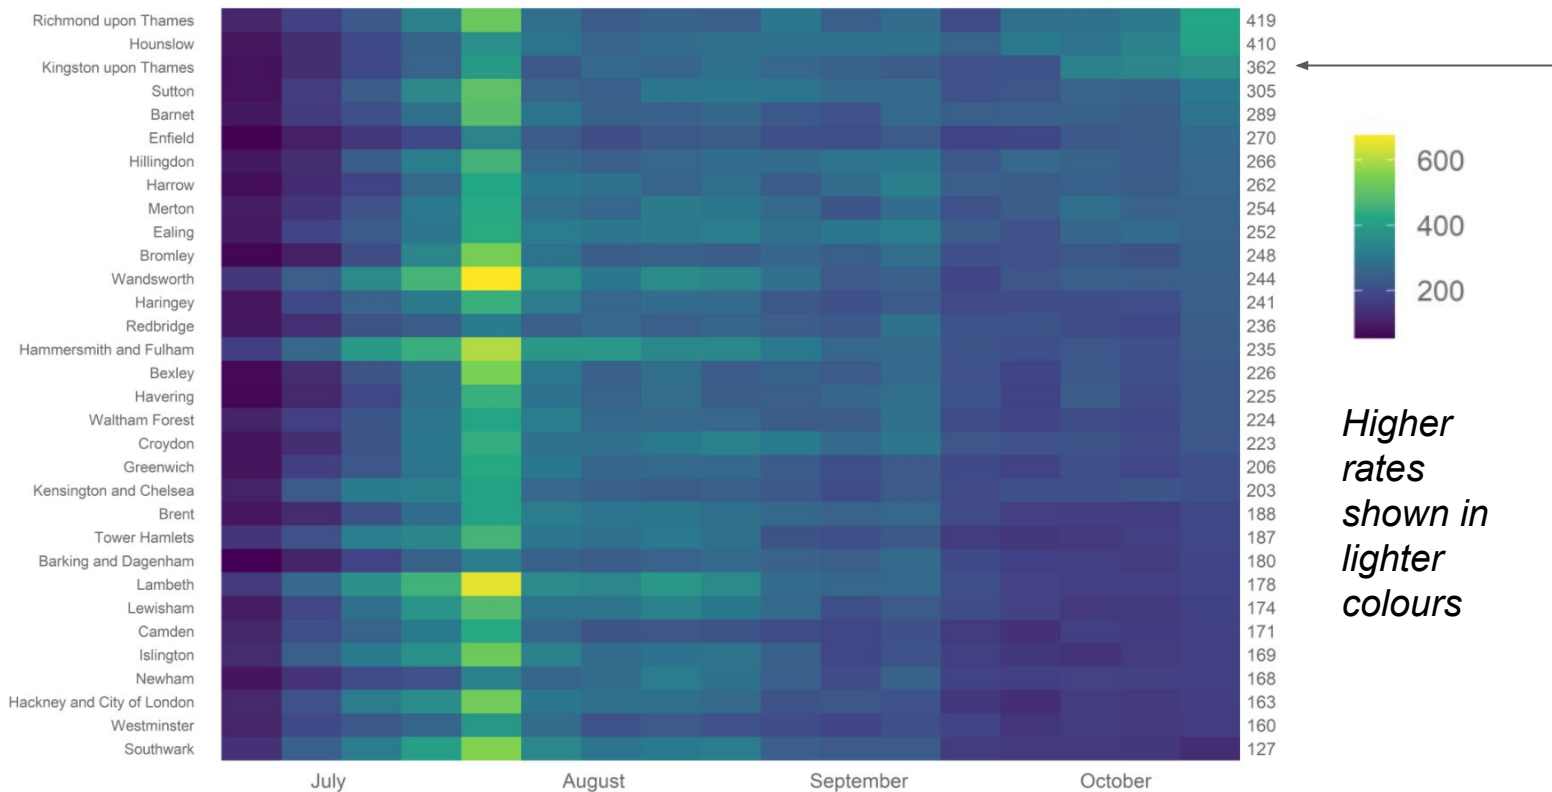

You can check the latest data here: <https://data.kingston.gov.uk/home/coronavirus-dashboard/>

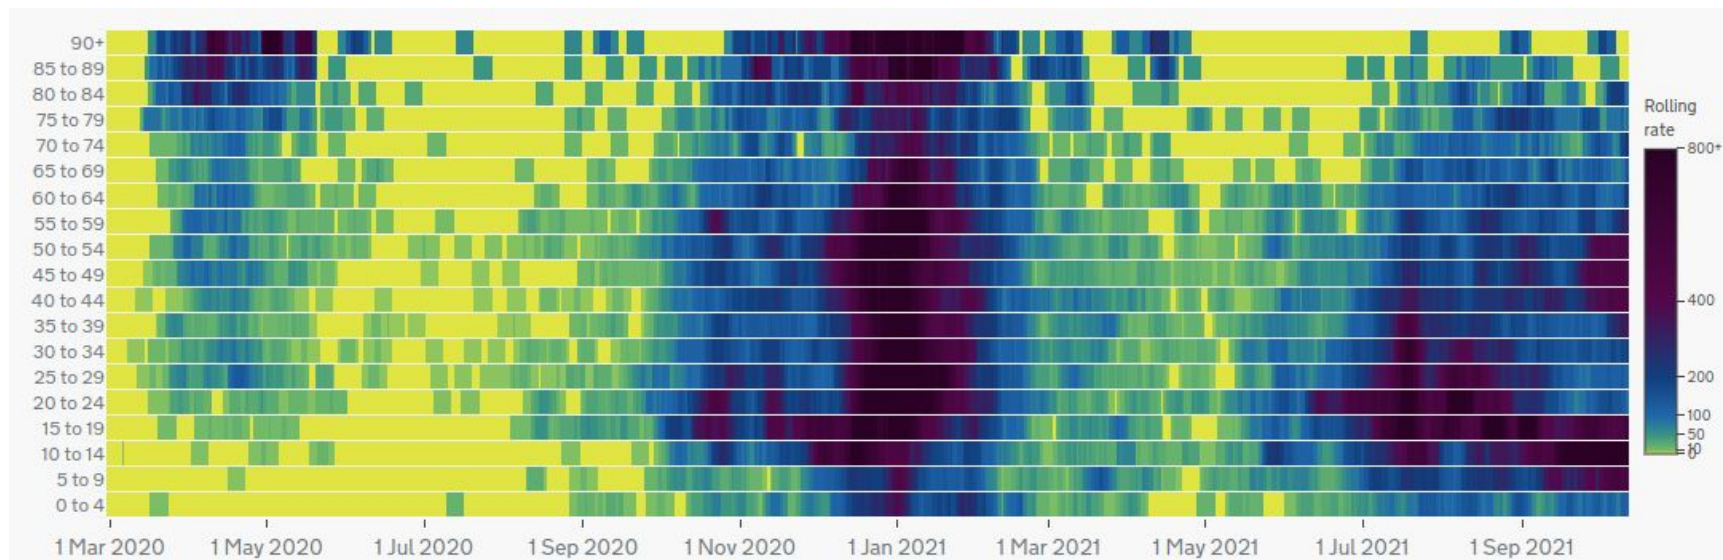

How does Kingston compare to other London boroughs?

Weekly case rates per 100,000 population

Kingston as a whole:
262/100,000/week

Number of Kingston residents vaccinated to October 10th, by age group

	Age Group														
Dose 1	Under 18	18-24	25-29	30-34	35-39	40-44	45-49	50-54	55-59	60-64	65-69	70-74	75-79	80+	Total
Number of people vaccinated	3,499	11,466	9,682	10,814	11,515	12,348	11,811	11,007	9,796	7,890	6,481	6,339	4,355	5,971	122,974
Percentage of this group vaccinated	27%	69%	68%	73%	74%	81%	83%	87%	90%	90%	91%	93%	94%	88%	81%
Dose 2															
Number of people vaccinated	748	9,589	8,635	9,886	10,762	11,737	11,410	10,669	9,454	7,672	6,373	6,254	4,312	5,906	113,407
Percentage of this group vaccinated		58%	60%	66%	69%	77%	80%	84%	87%	87%	89%	92%	93%	87%	74%

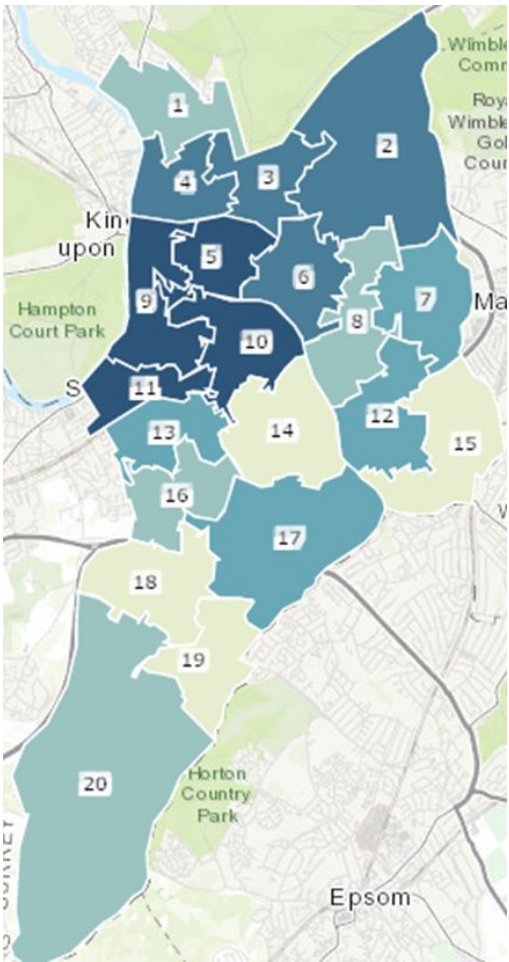

Just over 300 residents had their first dose this week, two thirds of whom were under 18
81% (range 75-86%) of Kingston's adult population have had at least one vaccination, or 76% if we include 12-15 year olds:
Around 20% (one quarter) of adults in Kingston have no vaccination protection
74% (range 69-79%) of adult residents have had two vaccinations.

% first doses for under 18's now include 12-15 year olds, resulting in a large % decrease from previous figures.
No comparable second dose % for under 18's can be produced as not all of this group are due to be called for second doses.

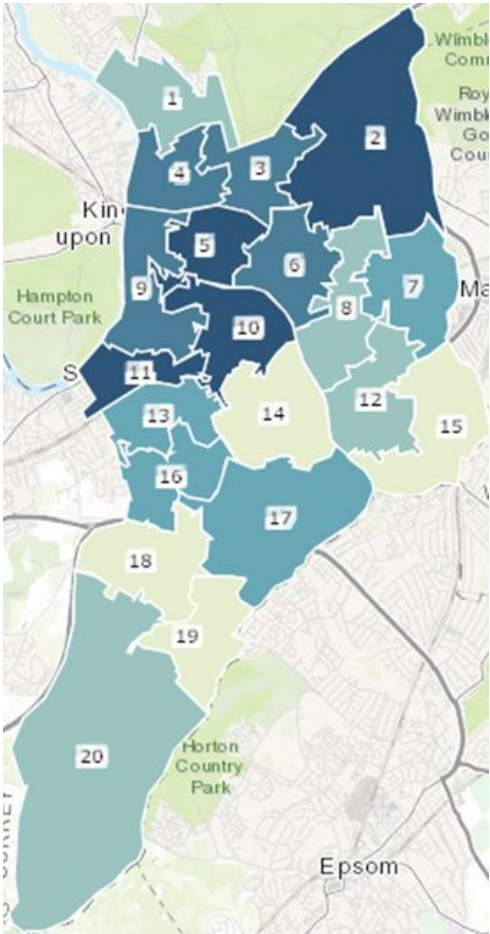

AREAS FOR YOUR FOCUS: MSOA map of vaccination % uptake to October 10th 2021

MSOA number and name
1 - Tudor Drive
2 - Kingston Vale & Coombe Hill
3 - Kingston Hill
4 - Kingston North
5 - Kingston East & Norbiton West
6 - Norbiton East
7 - New Malden East
8 - New Malden West
9 - Kingston Riverside
10 - Berrylands North
11 - Surbiton North
12 - Malden Manor
13 - Surbiton South
14 - Berrylands South
15 - Motspur Park
16 - Southborough
17 - Tolworth
18 - Hook
19 - Chessington North
20 - Chessington South & Malden Rushett

all ages

age 18-29

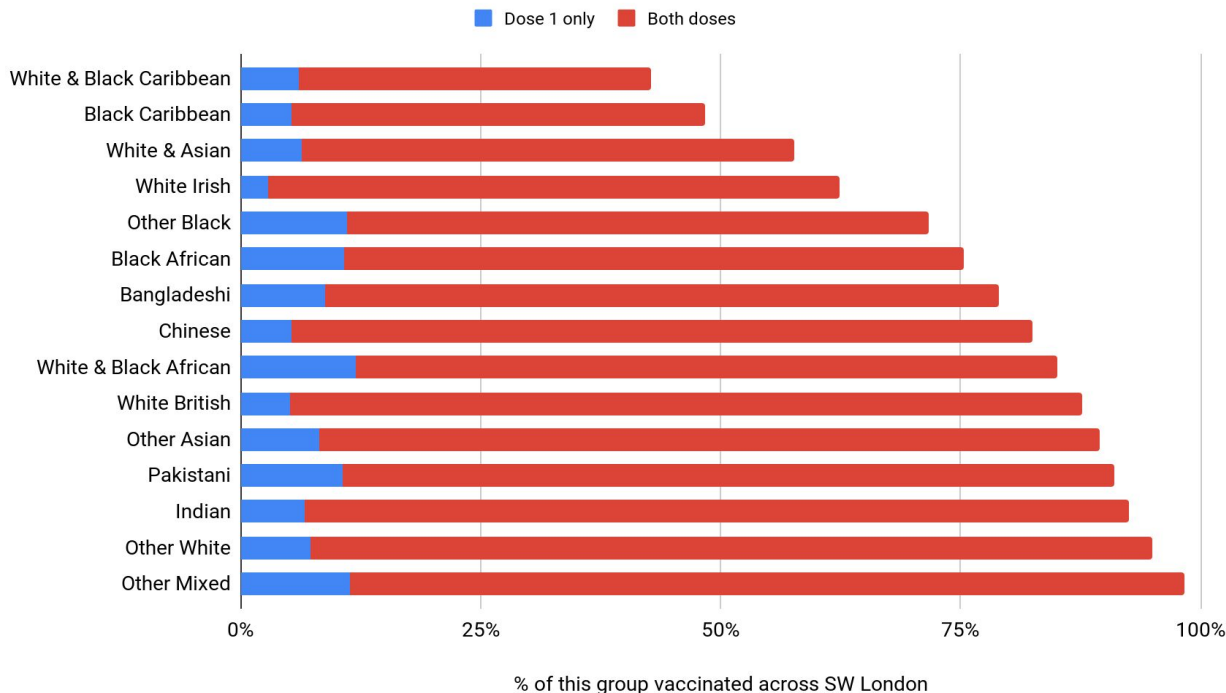

MSOAs have been split into five groups, with darker colours reflecting a lower first dose uptake

For younger residents, the lowest uptake is around Coombe and Norbiton, as opposed to Kingston Town for all adults

(No change to the maps this week)

Can you help us make sure no one is left behind?

Proportion of ethnic groups vaccinated in South West London, to October 10th 2021

Certain Mixed and Black groups are amongst the lowest-vaccinated overall.

Over 40% of White & Black Caribbean residents have had a vaccine dose, rising to almost 95% of the Other Mixed and Other White populations.

Now all adults have been offered a vaccination, this chart gives a more rounded picture of take-up across ethnicities

N.B. the 'other ethnic group' has been removed as it is reporting well over 100% completion due to an underestimate of the size of this group

Communications messages: we need to keep reinforcing the 'be cautious' and 'get tested' and promote the vaccination opportunity messages

- Meet up outside, or keep windows and doors open to circulate **fresh air** inside
- Take **rapid lateral flow tests** twice a week
www.kingston.gov.uk/rapid-testing
- Wear **face coverings** on public transport, and in busy indoor spaces
- Download the **NHS COVID-19 app**
- **Wash your hands** regularly with warm soapy water

Please share: Got symptoms (even if mild)? Take a PCR test

NHS
Test and Trace

COVID-19

**Take a test,
even if you have
mild symptoms.**

Covid-19 is still with us. So don't guess, get a test and stay at home if you think you could have Covid-19.
Let's keep life moving.

Order your PCR test now at nhs.uk/Get-Tested or call 119

Key vaccination messages

- All children over 12 year olds will be offered one dose of the Pfizer vaccine, and programme is underway
- All 16-17 year olds are eligible for one Pfizer dose and uptake has been very positive - more than 3 in every 4 are now vaccinated
- Walk-in clinics in the borough available for all eligible 12 years+ - it's never been easier
- 12-15 year old vulnerable (or living with immunosuppressed people) have also been eligible for some time, and should have been contacted by local NHS services
- **16+** can book online through the NHS National Booking System, or by calling 119.
- **Due your 2nd jab?** Now **8 week interval**, not 12
- Local walk-in vaccine clinics are being updated all the time
kingston.gov.uk/vaccine
- 3rd jab to be given to all CEV groups over 12 years old, and to all cohorts 1-9
- booster dose to be encouraged for everyone in your networks - 6 months after 2nd jab

Covid booster and Flu jab messages

- 3rd (booster) jab to be given to all CEV groups over 12 years old, and to all cohorts 1-9
- General advice to those eligible is to wait to be contacted by the NHS
- Once contacted, booking can be done online through the NHS National Booking System (NBS), by calling 119
- The current exception to this is for Health & Social care Workers (HSCW), who can use the NBS by self-certifying their work status
- A further exception to this in Kingston, is that PSM Pharmacy, Ewell Rd are now offering walk-in booster jabs to all over 50s that had their 2nd dose 6 months (182 days) ago
- Flu jabs are being offered now to all over 50s, to children, HSCW, and a number of others with long-term health conditions
- It has been agreed that Covid boosters and Flu jabs can be co-administered
- Those waiting for their Covid booster should not delay getting the Flu jab - vice versa
- Evidence indicates potentially worse health outcomes for those co-infected

Winter Immunity: Flu and Covid-19

Please share these assets with all your networks, so that we can promote maximum Winter Immunity for our Communities

Walk-in vaccinations for 12-15 year olds

All over 12s are eligible for COVID-19 vaccination

From today, 18 October 2021, many local walk-in clinics will be open for 12-15 year olds

Many will already have been vaccinated in schools - this offer augments existing provision, through vaccination opportunities without appointment this half-term

All offers for these groups around Kingston are available on our website:

kingston.gov.uk/vaccine

All offers across South West London can be found on the SWL NHS CCG website:

swlondonccg.nhs.uk/covid
