

Welcome: Session 32 (20/09/21)

- Thank you for joining us
- We are grateful for the support of the community sector working in partnership with us to share messages with the residents of Kingston
- We need every resident to know what they can personally do to keep themselves safe - and that way - also help Kingston safe as a whole
- Today we will share the latest data for Kingston
- We will share the latest key messages - for you to share with your contacts
- We are asking for your feedback and suggestions on questions about how we can best give messaging to residents.
 - Towards the end of the presentation, **please go to slido.com and type # 970 365**

Kingston daily cases at 14/09/21 (latest data at 18/09/21)

31 Aug 2021

■ Number of cases : 92
— Cases (7-day average) : 64.4

7 Sep 2021

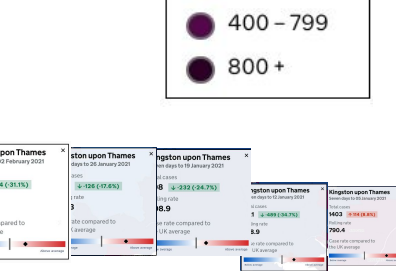

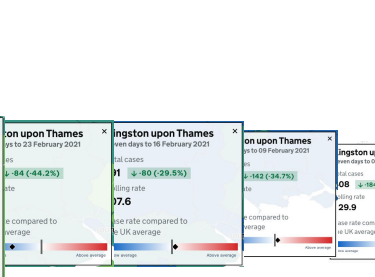

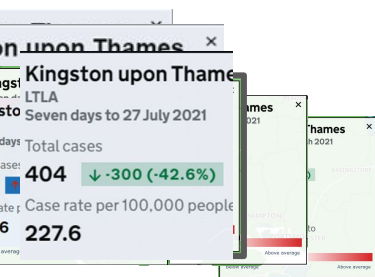

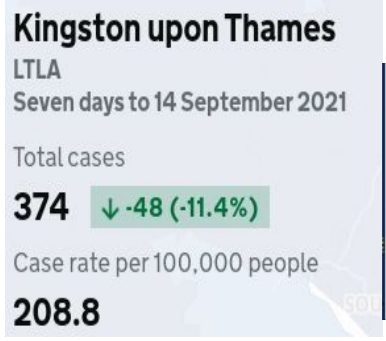

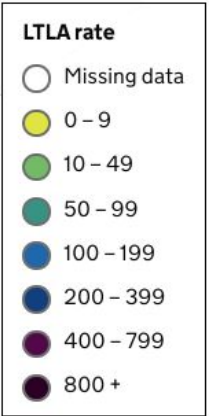

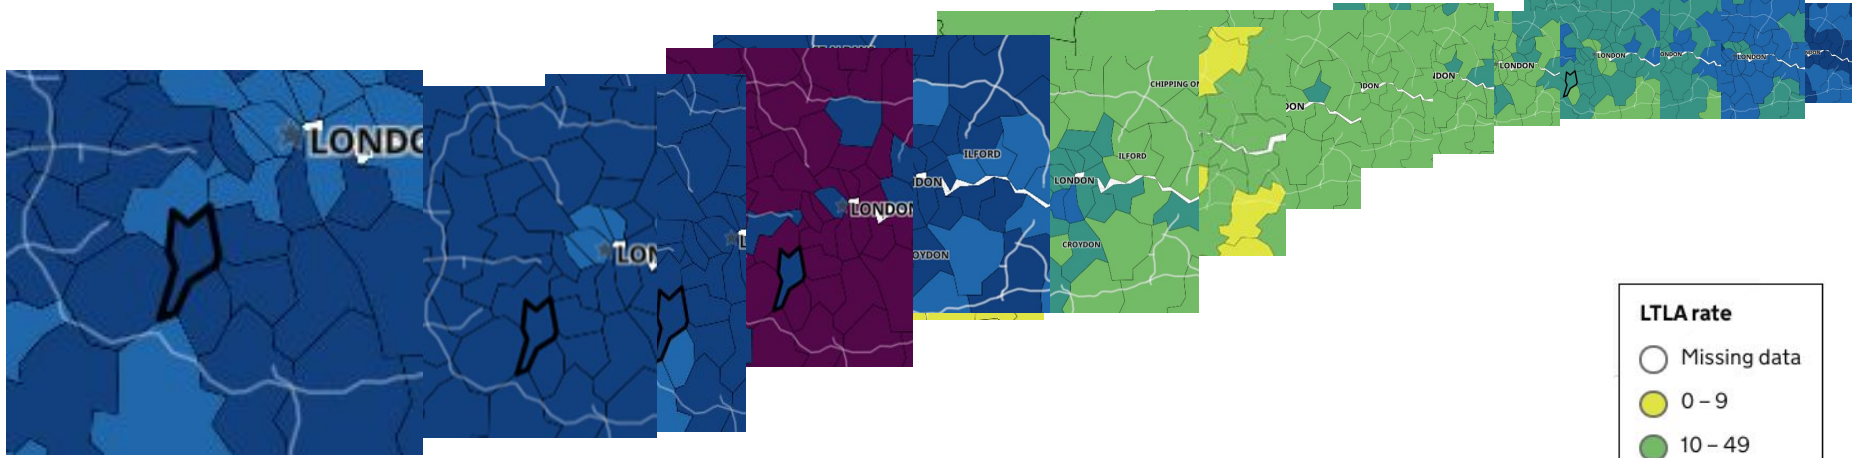

■ Number of cases : 67
— Cases (7-day average) : 54.9

14 Sep 2021

■ Number of cases : 68

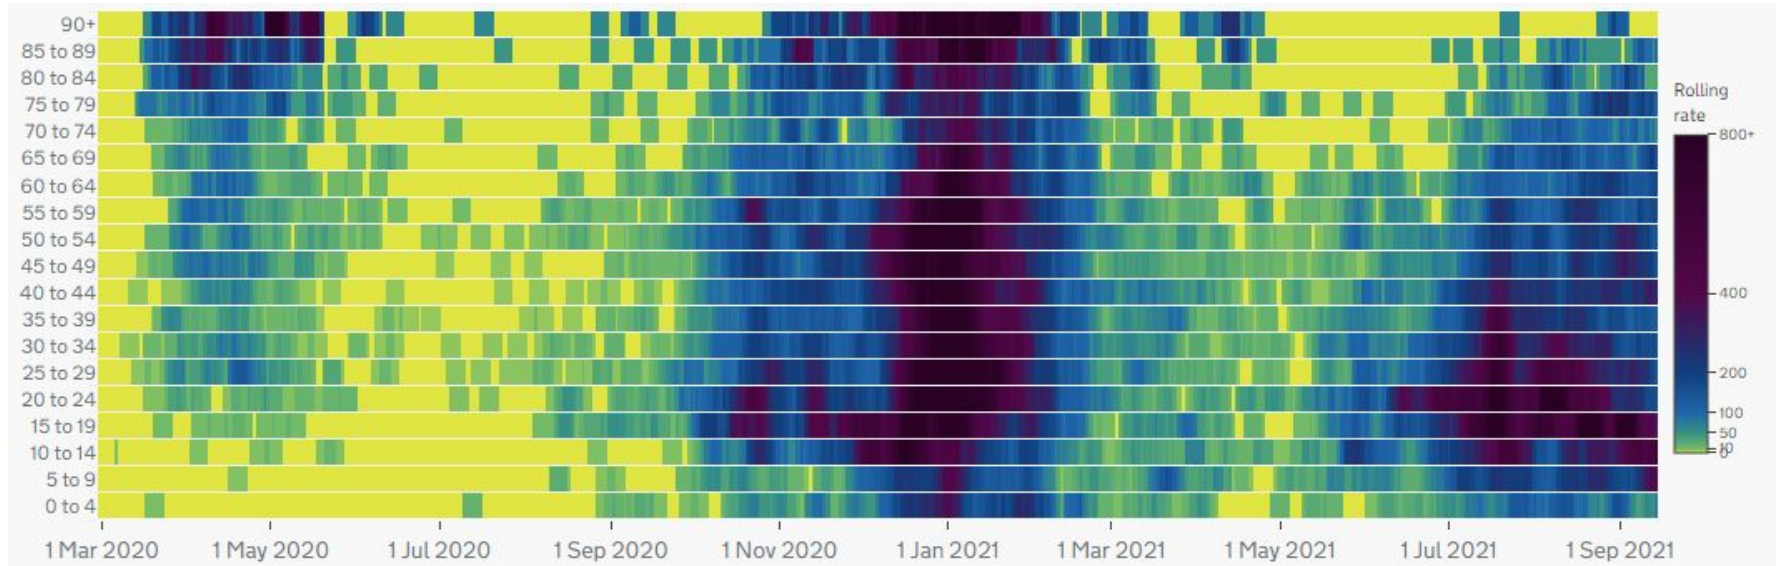

Average daily case numbers have been largely high but steady over the past few weeks

What is the trend in Kingston for COVID-19?

You can check the latest data here: <https://data.kingston.gov.uk/home/coronavirus-dashboard/>

Seven day rate per 100,000 population / week, to 14th September 2021, by age group in Kingston

Date: 14th September
Age group: 0 to 4
Rolling Rate: 74.8

Date: 14th September
Age group: 5 to 9
Rolling Rate: 387.9

Date: 14th September
Age group: 10 to 14
Rolling Rate: 632.4

Date: 14th September
Age group: 15 to 19
Rolling Rate: 356.4

Date: 14th September
Age group: 20 to 24
Rolling Rate: 164.4

Date: 14th September
Age group: 25 to 29
Rolling Rate: 149.7

Date: 14th September
Age group: 30 to 34
Rolling Rate: 152.7

Date: 14th September
Age group: 65 to 69
Rolling Rate: 158.9

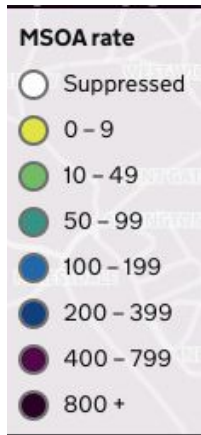

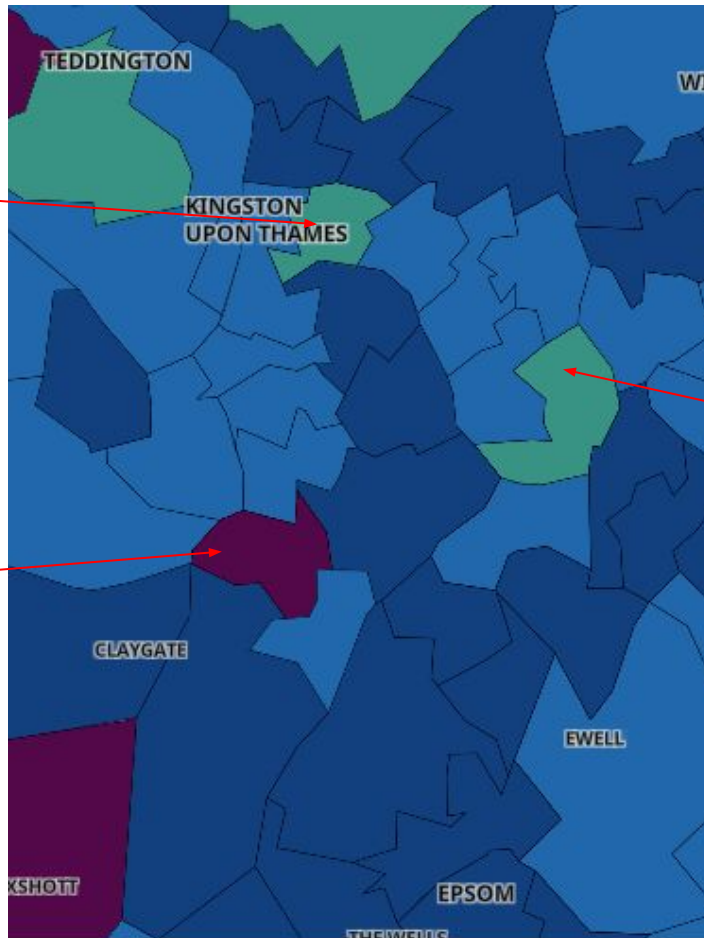

Date: 14th September
Age group: 75 to 79
Rolling Rate: 111.2

Rate is highest in the 10-14 age group.

Just over 250 residents had their first dose in the week to September 12th, the lowest weekly total so far
 Four out of five (range 75-85%) of Kingston's adult population have had at least one vaccination,
 including over **three quarters of our 16 and 17 year olds.**

Weekly second dose numbers have slipped a little at just over 1,000 this week, mostly 18 - 29 year olds.
73% (range 68-78%) of adult residents are now fully protected.

Proportion of Kingston residents vaccinated to September 12th 2021, by age group

Both doses Dose 1 only

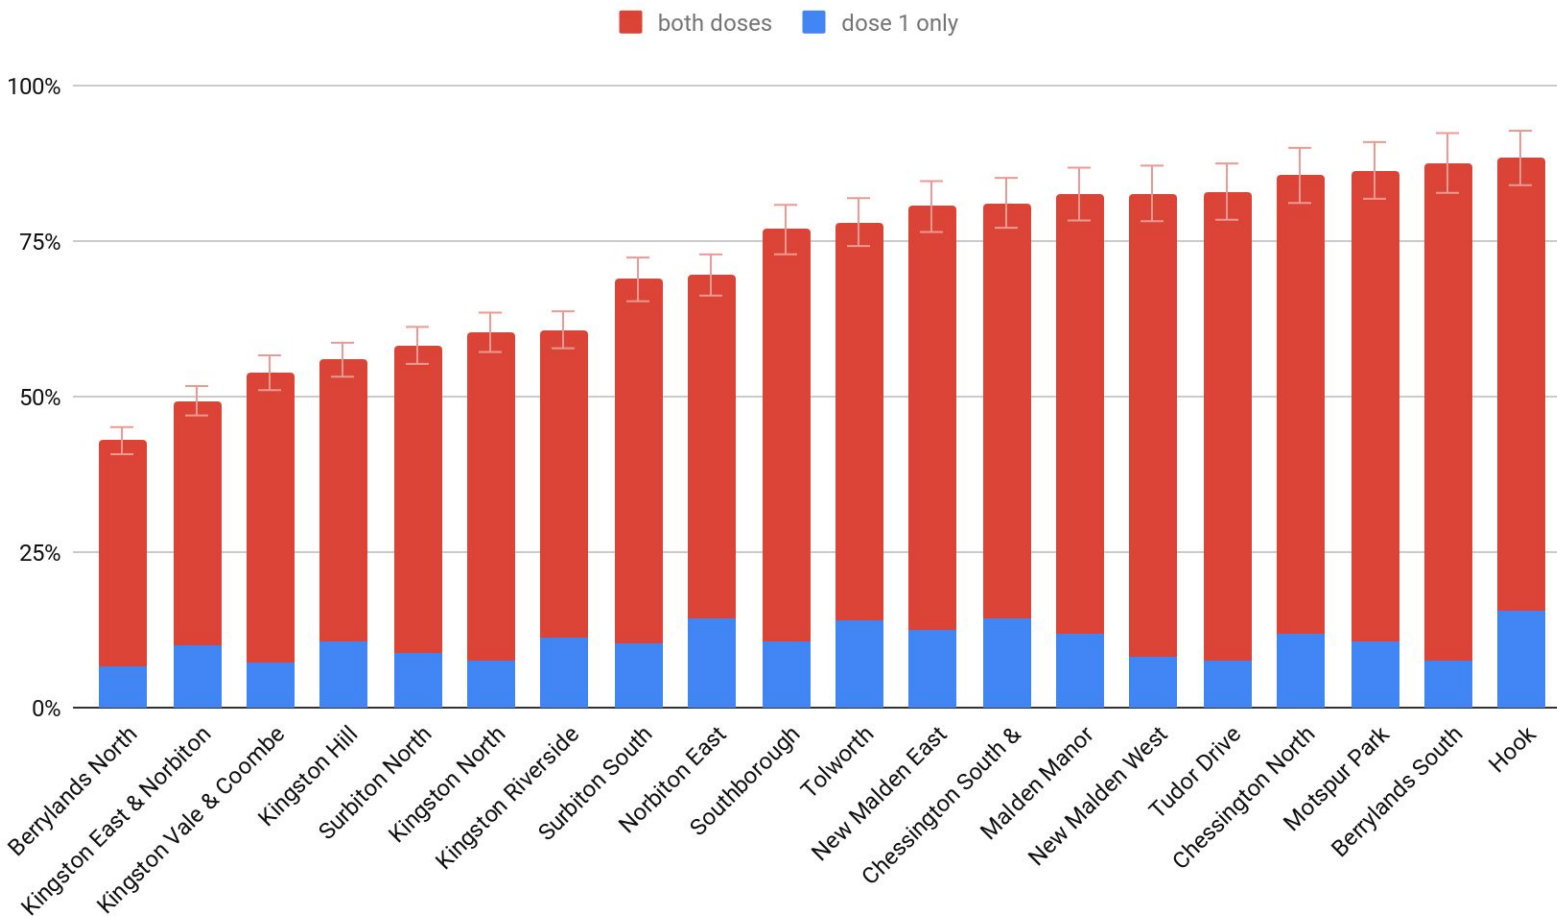

NIMS and ONS denominators are averaged to estimate population size

	Age Group														
Dose 1	Under 18	18-24	25-29	30-34	35-39	40-44	45-49	50-54	55-59	60-64	65-69	70-74	75-79	80+	Total

Percentage of Kingston residents vaccinated to September 12th by MSOA - **18-29 year olds**

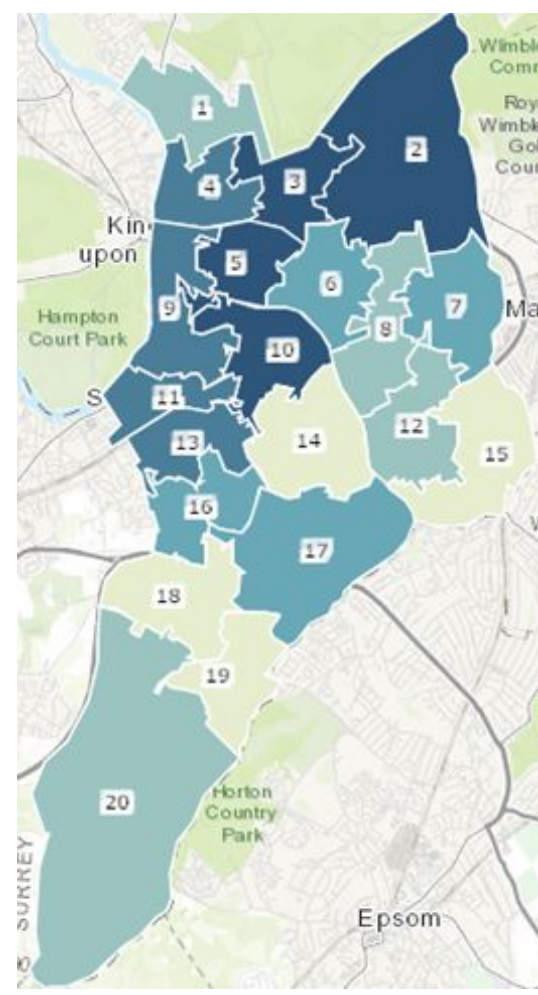

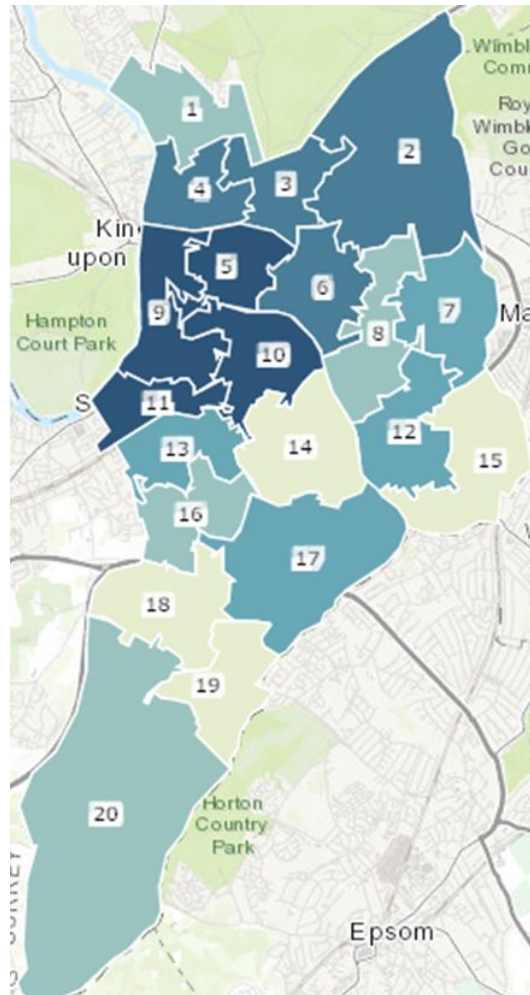

A much greater variety can be seen here than for all ages, with uptake in the highest areas around double that in the lowest

MSOA map of vaccination % uptake to September 12th **all ages**

age 18-29

MSOA number and name
1 - Tudor Drive
2 - Kingston Vale & Coombe Hill
3 - Kingston Hill
4 - Kingston North
5 - Kingston East & Norbiton West
6 - Norbiton East
7 - New Malden East
8 - New Malden West
9 - Kingston Riverside
10 - Berrylands North
11 - Surbiton North
12 - Malden Manor
13 - Surbiton South
14 - Berrylands South
15 - Motspur Park
16 - Southborough
17 - Tolworth
18 - Hook
19 - Chessington North
20 - Chessington South & Malden Rushett

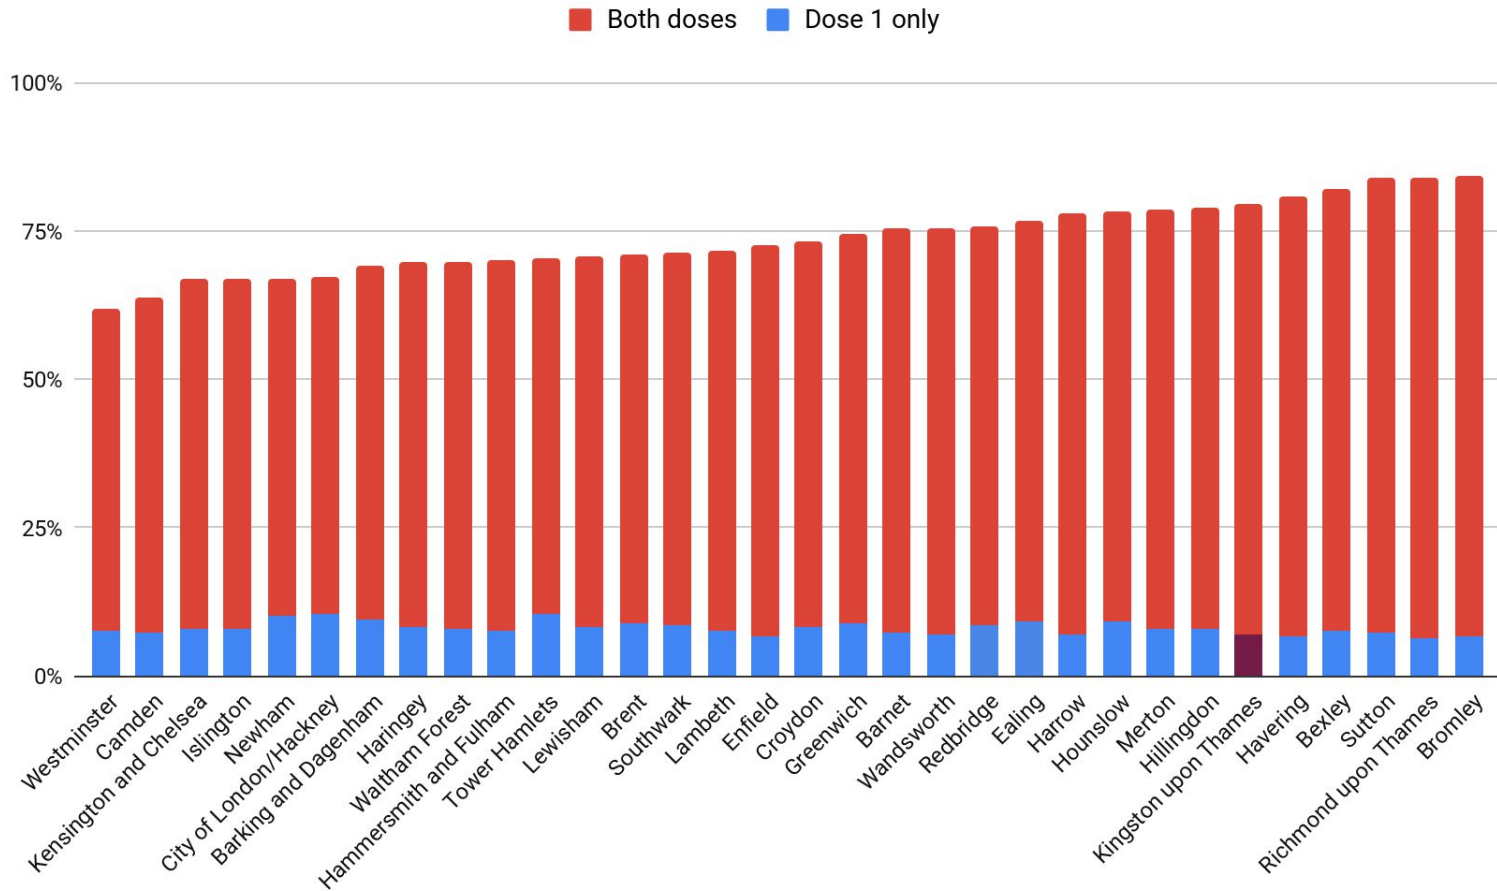

MSOAs have been split into five groups, with darker colours reflecting a lower first dose uptake

For younger residents, the lowest uptake is around Coombe and Norbiton, as opposed to Kingston Town for all adults

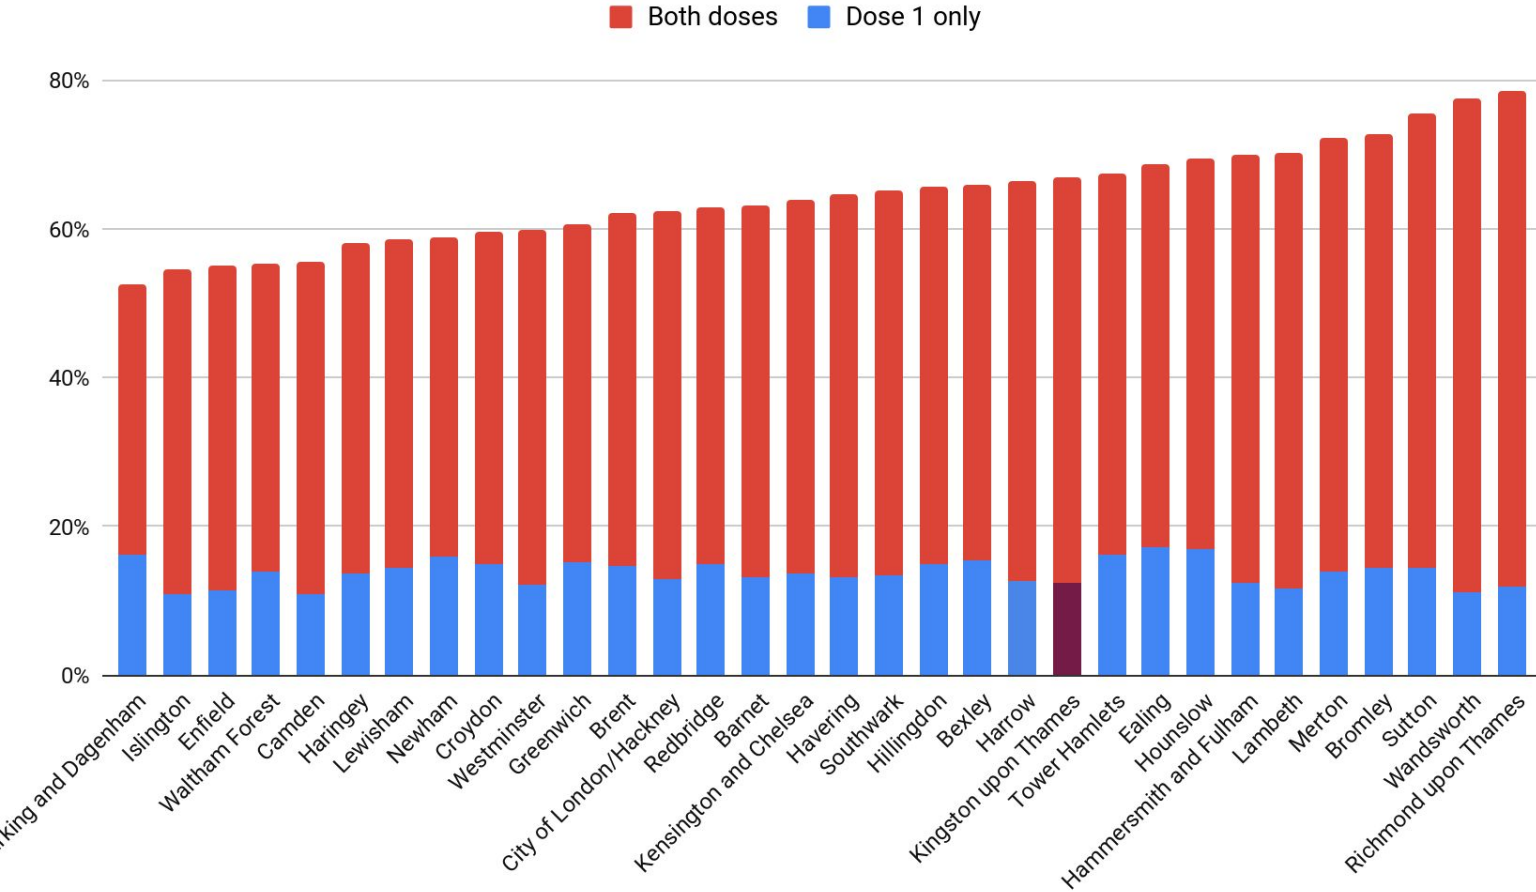

No change to the maps this week

Percentage of London residents vaccinated to September 12th 2021, all ages, by local authority

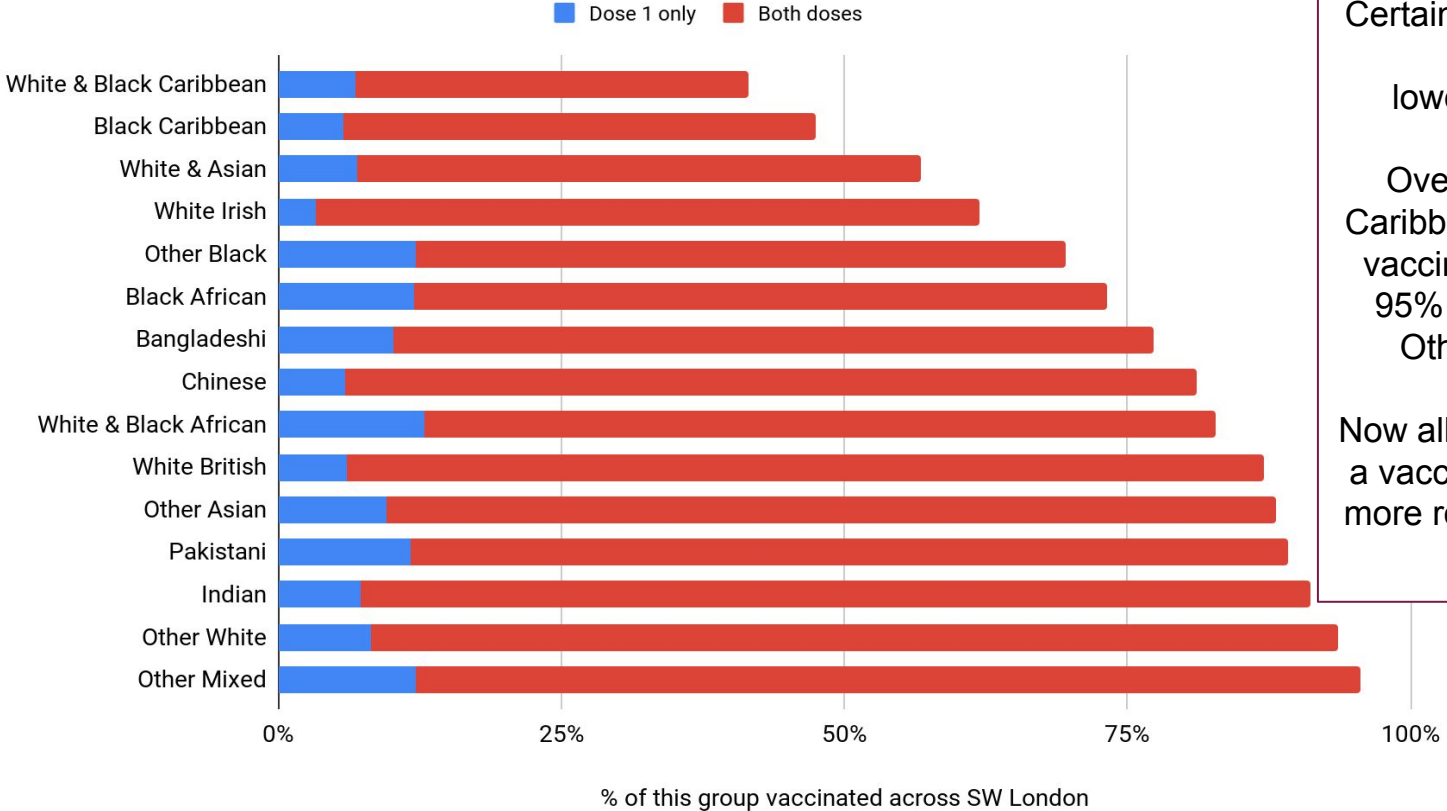

Kingston's uptake is one of the highest in London, and similar to our SWL neighbours

Percentage of London residents vaccinated to September 12th 2021, 18-29 year olds only

Even though Kingston's uptake is lower in the 18-29 yrs than the SWL average, it is still relatively high when compared to all London local authorities

Proportion of ethnic groups vaccinated in South West London, to September 12th 2021

Certain Mixed and Black groups are amongst the lowest-vaccinated overall.

Over 40% of White & Black Caribbean residents have had a vaccine dose, rising to almost 95% of the Other Mixed and Other White populations.

Now all adults have been offered a vaccination, this chart gives a more rounded picture of take-up across ethnicities

N.B. the 'other ethnic group' has been removed as it is reporting well over 100% completion due to an underestimate of the size of this group

Communications messages

As more people return to workplaces, and schools and universities reopen, there are things we can all do to stop the spread of the virus and keep each other safe .

- Meet up outside, or keep windows and doors open to circulate **fresh air** inside
- Take **rapid lateral flow tests** twice a week
www.kingston.gov.uk/rapid-testing
- Wear **face coverings** on public transport, and in busy indoor spaces
- Download the **NHS COVID-19 app**
- **Wash your hands** regularly with warm soapy water

Please share: Got symptoms (however mild)? Get Tested

HM Government

NHS
Test and Trace

COVID-19

**Take a test,
even if you have
mild symptoms.**

Covid-19 is still with us. So don't guess, get a test and stay at home if you think you could have Covid-19.
Let's keep life moving.

Order your PCR test now at nhs.uk/Get-Tested or call 119

WASH HANDS TESTING FACE COVERINGS APP

Return to University: Key Messages

- Test before travel to University
- Keep testing regularly
 - Order tests at: www.nhs.uk/Get-Tested
- Get vaccinated
 - Book at: www.nhs.uk/covidvaccine
- Use the NHS COVID-19 app
 - Download app

Travelling back to Uni?

Take a rapid Covid-19 test at home first.

It's free, quick and easy.

Make the most of uni life

It's an exciting new term. But Covid-19 is still with us. Here are 3 things you can do to help keep you and your friends safe:

- Keep testing regularly - rapid lateral flow tests are free, quick and easy
- If you're not fully vaccinated, grab a jab
- Use the NHS COVID-19 app to find out if you've been exposed to the virus

And whenever you take a rapid test, report all your results online or by calling 119

Order your tests at nhs.uk/Get-Tested
Book your jab at nhs.uk/covidvaccine
Download the NHS COVID-19 app

Key vaccination messages

- All children over 12 year olds will be offered one dose of the Pfizer vaccine, through schools starting 22 Sep
- All 16-17 year olds are eligible for one Pfizer dose and should have been invited through their GP last month
- Walk-in clinics in the borough now available for all eligible 16 years +
- 12-15 year old vulnerable (or living with immunosuppressed people) have also been eligible for some time, and should have been contacted by local NHS services
- 18+ can book online through the NHS National Booking System, or by calling 119.
- **Due your 2nd jab? Now 8 week interval, not 12**
- Local walk-in vaccine clinics are being updated all the time
- www.kingston.gov.uk/vaccine
- 3rd jab to be given to all CEV groups over 12 years old, and to all cohorts 1-9

16+ Pfizer walk-in 7 days, with late opening

We are asking for your feedback and suggestions on questions about how we can best give messaging to residents.

please go to [slido.com](https://www.slido.com) and type #970 365

You can also use the chat function if you are unable to use Slido

slido

Q1: We have 'hotspot testing' capability (our testing bus) - how could the VCS help us promote such hotspot testing?

① Start presenting to display the poll results on this slide.

slido

Q2: Vaccination uptake in the 25-29 year olds is not as high as in other age groups. How do you think we can raise vaccine uptake in this age group in Kingston?

① Start presenting to display the poll results on this slide.

Any questions?

Are there any topics in particular you would like to be covered in future sessions? Please put your answers in the chat function.

If you have any suggestions you can also email

anna.searight@kingston.gov.uk

Thank you.

Together we can help Keep Kingston Safe
